EXPERTISE

Computer Science, Machine Learning, Computational Neuroscience, Software Engineering, Research, Infrastructure Automation, Cyber Security

EDUCATION

2022

University of Missouri Columbia, Missouri
PhD Candidate in Computer Science [Expected Graduation Fall 2022]
Dissertation: Theory and Data-Driven Explainable Models in the Neuroscience Domain
Topics: Machine Learning, Computational Neuroscience and Automation
Advisor: Dr. Satish Nair

2016

University of Missouri Columbia, Missouri
Master of Computer Science
Thesis Project: CNN-Fold: Protein Fold Recognition by Deep Convolutional Neural Networks
Advisor: Dr. Jainlin Cheng

2013

University of Texas at San Antonio San Antonio, Texas
BBA Infrastructure Assurance (Cyber Security)
Minor: Computer Science
Advisor: Dr. Nicole Beebe

INDUSTRY EXPERIENCE

More than 10 years working full-time in the professional computing field, with experience in software engineering, artificial intelligence, devops infrastructure, cyber security and academia

2022-Present

Software Engineer - Machine Learning, Techcyte Inc., Orem, UT
• Developed software for and maintained the machine learning pipeline responsible for classification and post-processing of blood, spore, and vet-related image samples
• Wrote custom monitoring solutions and improved classifier stability using Python, Docker
• Completed AWS projects using EC2, Elastic Container Service, SQS, CloudWatch, IAM

2018-Present

Co-Founder and CTO, VUCA News Inc. [https://vucanews.com], Bethesda, MD
• Developed a modular, docker-based, API microservice-style infrastructure. Facilitated all aspects of web development, data collection, processing and presentation.
• Utilization and development of supervised, unsupervised, and reinforcement learning-based machine learning models to predict future geo-political trends
• Wrote grant applications for various government agencies, awaiting potential funding $1M+

2017-2022

Cyber Security Analyst, City of Columbia, Columbia, Missouri
• Developed web-based vulnerability reporting systems responsible for reducing network vulnerabilities by more than 90% over the course of one year.
• Established and managed a comprehensive, multi-year security training curriculum for more than 1400 City employees. This includes yearly mandatory web-based training, phishing campaigns and weekly cybersecurity information updates citywide.
• Wrote City-wide cybersecurity policy, procedures, and incident response plans that put the City of Columbia ahead of its peers using industry metrics
• Security Information and Event Management (SIEM) development using the ELK stack, UNIX system management and automation, PowerShell and UNIX scripting, PKI/Crypto

2015-2017

Software Developer II, Shelter Insurance, Columbia, Missouri
• SCRUM/Team-based, interdepartmental programming projects -used Java, HTML, PHP, JavaScript SQL, jQuery, REST, Spring/Boot and git.

2012 — ***Cyber Security Intern***, Pacific Northwest National Laboratory, Richland, Washington
- Identified web-based attacks on the company network, developed scripts, documented policy

2009 - 2011 — ***Computer/Media Technician***, Lackland Independent School District, San Antonio, Texas
- Supported staff, developed student ID system, maintained technology infrastructure

TEACHING EXPERIENCE — Broad range of topics covered as a Teaching Assistant over many years, with experience designing curriculum, developing new teaching tools, grading, overseeing labs, and lecturing

2022 - Present — ***Adjunct Instructor – Computer Science***, Department of Computer Science and Cybersecurity, University of Central Missouri
- CS 4150: Object Oriented Programming and Data Structures
- Developed curriculum and delivered lectures to incoming graduate students coming from diverse academic backgrounds

Fall 2018 - Present — ***Teaching Assistant***, Department of Electrical Engineering and Computer Science, University of Missouri
- CMP_SC 4970W & 4980W: Computer Science Senior Capstone Design I & II
- Aided in designing prototype CS senior projects and feedback on essays

2020 — ***Teaching Assistant***, Department of Electrical Engineering and Computer Science, University of Missouri
- CMP_SC 7580/4580: Neural Models and Machine Learning
- Developed curriculum for machine learning and pipeline automation tasks
- Lead a team of developers and designed an original docker-based cyber infrastructure that allows students to access and run to all software needed for their course. [lab.cyneuro.org]

Summer 2018 — ***Teaching Assistant***, Department of Electrical Engineering and Computer Science, University of Missouri
- ECE 4995: Undergraduate Honors Research in Computational Neuroscience (13 students)
- Lecturing position, assisted in development of curriculum (Hodgkin-Huxley theory)

Fall/Spring 2016 — ***Teaching Assistant***, Department of Computer Science, The University of Missouri
- CMP_SC 4320: Software Engineering (50+ students)
- Supervised and assisted 14 team programming projects using Scrum software development

2012 - 2013 — ***Undergraduate TA***, Department of Business, The University of Texas at San Antonio
- Java I and Java II - Instructional aid for student programming homework and projects

RESEARCH EXPERIENCE — Broad range of research in the cross section of machine learning and neuroscience

Veterans Health Administration (VHA/VA) WOC Affiliate Researcher

Fall 2018 – Present — Harry S. Truman Memorial Veterans' Hospital, Columbia, Missouri
- Data Scientist position – deep neural network, random forest, and linear regression modeling

Neural Engineering Laboratory Researcher

2017 – Present — University of Missouri, Columbia, Missouri
- Contributed to a team of PhD student researchers aiming to analyze biologically realistic neural networks. Projects include single cell crustacean cardiac ganglion, Hippocampal Theta models, 27,000 cell+ Amydala models, micturition, and LFP prediction using ML
- Designed programs (SimAgent, BMTools, and SimBuilder) in Python/Tkinter that streamlined the process of designing and running large-scale neural simulations on supercomputers.

- Mentored undergraduate seniors in the design of senior projects – eg: automation of parameter selection in small networks and automated rejection sampling
- Maintaining CyNeuro.org website (PHP, HTML, CSS)
- Listed contributor to the Allen Institute's Brain Modeling Toolkit (BMTK) on GitHub

2011 – 2013 ***Research Assistant***
University of Texas at San Antonio, San Antonio, Texas
- Developed offsite malware analysis facilities to study statistical prevalence of malicious code
- Custom software and scripts (Bash, Python) written to facilitate the needs of a government client

AWARDS/ DISTINCTIONS

- Alumni - Dr. Jainlin Cheng's Bioinformatics, Data Mining and Machine Learning Lab, 2016
- NSF SFS **Grant** Recipient 2011 – **$50,000** award that financed final two years of undergraduate education

PUBLICATIONS AND POSTERS

Banks T, Scherrer J, Salas J, Nair S, "**A Machine Learning Tool for Advanced Opioid Dependence Detection**" Manuscript in Progress, 2022

SKILLS AND QUALIFICATIONS

Computing skills: Programming, Computer Science, Machine Learning, Artificial Intelligence, Algorithms
Languages: Python, Java, C, C++, C#, Sed, Awk, MATLAB, Octave, JavaScript, TypeScript, PHP, SQL, Cypher

- Public speaking, training, and speechwriting
- Outstanding written and oral communications
- Knowledge of the university environment and tools
- Highly adaptable and capable of learning new skills quickly

PROFESSIONAL ASSOCIATIONS

- 2011 - Associate of ISC^2 CISSP
- 2009 - Comptia A+, Network+, Security+
- Society for Neuroscience student member
- IEEE member
